Mr. [] (OIT) requested of [] the position of CIA as to the advisability of OIT's approval of an EXPORT LICENSE application covering the shipment of 85 billion units of PENICILLIN TO the FRENCH ZONE OF AUSTRIA. [] contacted [] D/M, who saw no objection to this shipment in view of the small quantity and of VSC (Vienna Screening Committee) approval; [] indicated, therefore, "no objection" to approval of this shipment. D/A, [], is extremely concerned over possible shipments to areas wherein export controls are not adequately effective in view of intensive efforts on the part of the Soviets to procure drugs and pharmaceuticals. [] attended meeting at Department of State (which was attended by representatives of State, Commerce, AEC and ECA) on the subject of GERMAN EXPORT CONTROLS. (State submitted an official memorandum on the proposal to turn over to the German Government administration of export controls. Asked for his views, [] stated that CIA was interested only in the intelligence aspect. He said there was ample intelligence to support the conclusion that Germany was the principal source or channel of strategic materials flowing to the Soviet orbit, and that the administration could be improved with the turn-over of actual controls to the German government.
